

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Inspection service at Eastport, Me.

Eastport, Me., February 20, 1902.

SIR: I beg to submit the following report of work done at this inspection station during the week ended Thursday, February 20, 1902:

Vessels inspected.

					Passengers.	
Date.	Vessel.	From.	For.	Crew.	For East- port.	In trans- it.
Feb. 14 Feb. 18 Do	U.S.ss. Lilac Sch. John I.Snow Ss. H. F. Eaton	New York	Eastportdodo.	7		
Do			dodo	6	10	
Feb. 19	Ss. St. Croix	Boston	Eastport and St. John, New Brunswick.	61	15	19
Do	Ss. Aurora	St. John, New Bruns- wick.		8	3	3
Feb. 20	Ss. H. F. Eaton		Eastport	10	7	
Do	Ss. St. Croix	St. John, New Bruns- wick.	Boston	61	6	22

The reports from St. John, New Brunswick, and Lynnfield, New Brunswick, are favorable—all convalescing.

Respectfully,

EDWARD M. SMALL, Acting Assistant Surgeon, U. S. M. H. S.

Inspection service at Vanceboro, Me.—Smallpox in New Brunswick and Nova Scotia under control.

VANCEBORO, ME., February 24, 1902.

SIR: For the week ended February 22, I have vaccinated 56 passengers at this port, but have not considered it necessary to disinfect any baggage. * * *

The smallpox situation in New Brunswick and Nova Scotia seems now to be very well under control. At all the points where it was epi-

demic, no new cases have occurred since my former report.

My vaccination has been chiefly done among the second-class passengers from the north shore of New Brunswick, where there are several isolated cases, and where the people will not vaccinate if they can possibly avoid doing so.

Respectfully,

M. L. YOUNG, Acting Assistant Surgeon, U. S. M. H. S.

A case of smallpox from the steamship Yellow Jacket at Seattle.

SEATTLE, WASH., February 17. 1902.

SIR: I have the honor to report the following circumstances regard-

ing the steamer Yellow Jacket:

Seaman William Gulliver left the Yellow Jacket on February 13 and applied to the city health officer for medical relief [sick with smallpox]. He was sent to the city pesthouse. The Yellow Jacket left this port on the 13th instant before the health officer reached the dock. On February 14 the health officer reported the case to me, and I immediately informed Dr. Foster and waited for his instructions. On February 15 the Yellow Jacket returned to Seattle and was quarantined immediately awaiting orders from Dr. Foster. The crew was vaccinated.
